## ABOUT ME

Resourceful and dedicated University student with first-class analytical skills and a demonstrated commitment to providing team work skills. Strong organizational abilities managing and leading multiple team members and volunteering events.

## EDUCATION

**Thomas More university**  
Bachelor of Applied Computer Science  
  
2022 - present

## LANGUAGES

English (Advanced)  
Arabic (Advanced)  
French (Intermediate)  
Deutsch (Beginner)

## EXPERIENCE

**Blockchain Summer Intern** May 2022 - Aug 2022

Aether

Summer Intern at AETHER, Lebanon: Spearheaded a hybrid blockchain project, rapidly acquiring skills in Solidity, JavaScript, DApps, defi, Escrow, React.js, and Smart Contracts with a focus on blockchain technology. Successfully completed the project with no prior knowledge in most areas, demonstrating quick learning abilities and strong communication skills through daily updates with the CEO. Gained significant experience in software development and blockchain technology.

**ESN Belgium - Event Organiser** Feb 2023 -Present

As an event organizer for the Erasmus Student Network, I was responsible for planning and executing events that promoted cultural exchange and community building. I collaborated with other volunteers and external partners to create engaging and inclusive events that provided students with memorable experiences during their time studying abroad.
